

SPIE Optics + Photonics 2021

The leading multidisciplinary, optical sciences and technology meeting in North America

[View Invitation](#)

[Browse Program](#)

Join us in sunny San Diego for all the great content and connections you expect at Optics + Photonics

Hear the latest advances shared by researchers and scientists in optical engineering and applications, nanotechnology, quantum science, organic photonics, and astronomical instrumentation. Meet with top companies from the optics industry at the exhibition.

We are planning to hold this event live at the San Diego Convention Center with options for remote participation should you be unable to travel. Your work is important, so make plans to join your peers in San Diego and help create the future of optics and photonics.

Program now available. Registration opens soon.

With the new guidelines that will go into effect on June 15, attendees of Optics + Photonics will be able to safely enjoy our technical conferences as well as our many outdoor networking receptions. We look forward to coming back together in San Diego—where we celebrate the importance of optics, photonics, light, and collaboration—in accordance with CDC and California guidance.

Stay tuned for updates, and prepare now to join your colleagues.
